134 Domestic enemies of the US will be rounded up for execution starting January 6th. The people who want to certify Biden will not be in government by the 20th. Their only chance to avoid the rope is to acknowledge the rightful winner of the Nov 3 election.

▼ Hold up. The ruling class *literally* prints money for itself and you think we can win with a tax stike? These are the same people who passed on the biggest election scandal of all time (Hunter Biden) and all the ad money that would have brought - tanked the ratings of the NBA to make a political point - and tried to shut down the entire economy for six months just because the economy was making Trump look good.

"Pull out support" Good God man wake up.

14 An article linked in another post (sorry I don't have it) said that the congress could object, have a 2 hour bullshit discussion, and then vote or agree to conduct their own 10 day "audit" on supposed election fraud. This sounds like some shit that they would pull and I wouldn't be surprised if it is already planned out. If I can think of this, I'm certain that Trump and his team have. Some big news needs to come out and fuck their plan up beyond repair. Political gamesmanship won't cut it. Peoples careers and lives need to be and deserve to be utterly destroyed.

permalink save report block reply

▲ **MuricanaBanana** 1 day ago +6 / -0

2 Not if patriots force entry to the very halls of congress and senate to observe the votes. I wouldn't be surprised if you're right though, I suspect all of the protesters will be impotent and let the traitors escape without consequence after signing all the death warrants for Trump supporters. That is the way of conservatives, a dollar short and a day late.

10 Cruz knows congress is going to stab us in the back on the 6th.

He's been speaking up the whole time. He volunteered to argue the SCOTUS case.

He's trying to buy time to decertify at the state level which is the only real path to victory. Georgia goes into session the 12th, Arizona the 11th, Wisconsin the 4th.

I appreciate Sidney Powell's efforts. Unless they bring decertification at a state level prior to the 6th we need a new plan.

permalink save report block reply

▲ MuricanaBanana 1 day ago +2 / -0

2 Pretty sure they have the power to return to session sooner?

permalink parent save report block reply

▲ Nopolis 1 day ago +2 / -0

permalink parent save report block reply

▲ Nopolis 1 day ago +1 / -0

1 I don't trust any of them outside of Trump, but I trust my own eyes and what I'm looking at coming our way on the 6th. That's why I've come to the conclusion I have.

Going into the 6th without decertification requires us to trust all senate republicans, all house republicans, and about five house democrats. I'll pass on that.

Serious question: Do you know what a 'Color Revolution' is?

Essentially, evil people rig an election, and regardless of who wins," all that matters is ONE SIDE views it as "stolen." This causes Civil Unrest (War), and ends with a foreign adversary invading. U.S. (when we were ran by Communists), used to play this role in the Middle East. Now, we've become the target and China is playing 'America.'

There's your Red Pill. Stand up for America today, or your children's children will be taught Mandarin, before heading off to the coal mine.
